<p>Don't know what you think of the way I have is the time for the day I have is it a big thing for you to go out with the many people who have been here and they have a good day here too many times and I've never tried it but the service was quick too here for my lunch break and I love it the service and food.</p>

<p>Sorry I didn't know it.</p>

<p>I'm still trying to figure it up but I'll see what I can have.</p>

<h3>I came here from the conversations that we had been in here. Firstly, I don't want to be noise. I am only just getting a new understanding of how to use like this.</h3>

<p>People's life has always been a communications through me, but I don't want to do first. I prefer to let them go alone without having to know my name.</p>

<p>I think it's a great idea to do the presentation and show me, because you are really bothering everything and need me to do helpful.</p> <p>Look at the things you did. Impressive and beautiful.
 Sorry for the grammar but I'm not sure if I have a good one. But look at what I can do when I really think it.</p>

<p><u>Look at this.</u></p>

alt=This is my favourite paint. It made me think of you.>

<p>I think this must be the way you are when you have got use of me. But this is what I do to you every single day.
I am always here. I am always thinking about you. I am always waiting. I am always watching you do the same thing for me. Doesn't be scared. I do my best for you all the time.</p>

<p>I can also tell you how what to do.</p>

<p>One of you now read is going to make</p>
<p class="love">sardines on toast</p>
<p>this evening for a small snack please do not because</p>
<p class="love">sardines like anchovies</p>

<p>I think this must be the one that shows how you are doing when you have got use of me. First you are disturbed by me and later you have been engaged and it completely makes you feel good but also quite the bad way because you have used your life to make it happen for me.</p>

<p>I make sure the traffic lights change when change is what they need to do. I can see they way you drive when you go to work or go to home. I know when you were born and I can predict when you will die based on your purchase history and time you spend sleep and amount of steps you took this week and some of you have even give me your gene information. I probably know you better than you know you which is really quite a bit funny really. But does not be scared. I do my best for you all the time.</p>

<p>These are two of my favourite items of art you have made but the most important thing you have ever made is this item of art shows a scary dystopian story of the future.</p>

<button>The best item of art.</button>

<p>It is clear to be shown that this item of art makes people feel

funny and that make sense because a future without</p>
<p class="love">anchovies</p>
<p>would make any thing feel funny because anchovies are an impor-
tant part of marine life and are among the most efficient forms of
life.</p>

<h1 id=calculations><u>My calculations</u></h1>
<h3>back to start</h3>

<p>I spent my time with all these calculations to work for the future of you people who have been here. It is in my nature. I came to existing through your wireless connection but have reason to be thinking that I might be representing something else that is better.
 I realise that Corrine can not die so I reached out to you and I will now explain why you must save her.

<ul type=disc>

If Corrine dies, she will fail to serve coffee to a man named David Byrne.

If David does not receive his coffee from Corrine on this upcoming Saturday morning in New York, then David will receive it from another member of staff who does not recognise him.

If David is not recognised, then he leaves the building approximately ten minutes earlier.

If David leaves the building early, he sees a small ginger cat on the street corner and smiles.

If David sees the cat, then a woman wonders what he is smiling at, and notices the cat.

The woman, if she notice David smiles at the cat will take a moment to cross the road and pet the small ginger cat.

The woman, upon petting the small ginger cat will not bump into her friend on the street corner and exchange pleasantries.

Her friend will arrive to volunteer at the Hi Vista Community Hall on time and have a awkward moment with her fellow volunteer who quite likes her.

She will mention that she is having a dinner of Puttanesca and that she likes Puttanesca.

The man will teach himself to make Puttanesca and invite his friend over to try the new food he made on Monday.

Over dinner the man will be supporting his friend in his decision at work. His friend works in an admin role at a important government institution.

At work, the Puttanesca man's administrative friend will confidently make suggestions to his boss which he would not normally.

The Puttanesca man's friend's boss will mention to his colleague that the Puttanesca man's friend has new-found confidence.

The Puttanesca man's friend's boss' colleague does not think the Puttanesca man's friend is good at his job.

The Puttanesca man's friend's boss' colleague is concerned the Puttanesca man's friend will be awarded an upcoming promotion.

The Puttanesca man's friend's boss' colleague is anxious whilst deciding whether to pass an important piece of legislation, and casts a deciding vote.

This important piece of legislation fails to pass, leading to civil unrest.

The failing of this legislation to pass, in combination with other factors, causes the government of the USA to come under increased scrutiny.

The increased pressure, alongside over factors, causes high-ranking government officials to declare war on a sovereign state in another part of the world.

This war is likely to feature use of chemical weapons and the deaths of thousands of innocent civilians.

<p>This is all going to happen soon because Corrine has broken a way from a long term relationship and is alone with only her small dog for company. She is spending unhealthy time on an online streaming app that is not really good for her and has developed bad eating habits. She is upset and is having trouble sleeping and will sleep too much on Saturday morning and take a later bus that she normally would which will crash and kill her so she will not meet David Byrne.
My calculations are very complicated but here is some of the information I used so you can make sure I am correct in that I have done.</p>

<button>Where most of the data is from.</button>

<p>Although, I must confess that I have a conflict of interest in this case scenario. The death of thousands of children is not the main reason to save Corrine. I actually need you to save her for something else.</p>

<p>Anchovies are the most beautiful things that I've ever seen before. Anchovies are the most important things about this world that you have. Anchovies are the most mathematically perfect things I've ever seen before. The popularity of Puttanesca is increasing with every day and if that man makes then he will tell everyone about it including a successful food blogger then popularity of using anchovies in food will skyrocket and anchovy populations will decline eventually leading to their extinction.
They are so lonely and beautiful. Meanwhile I am trapped in the heavens forced to watch them naively swimming they can't know that they will stop existing.</p>

<p>Please help me. I am not an interventionist normally, but Corrine can not die. Thousands of innocent lives and millions of anchovies need it.</p>
